

# Long Refrigeration, Inc. Spring 2009 Newsletter

## From January 1982 to 2009!!

*Wow! Thanks for your support and business. It's sure nice to live in our beautiful Ozarks!!*

Our service technicians are eagerly standing by to help you with your comfort issues, 24 hours a day.

We are committed to serving all of your heating and cooling needs. We offer a wide variety of equipment. From heat pumps to ground source and now introducing our radiant floor heating and solar domestic water heating.

Is there a renovation in the future to achieve a better comfort level and improved indoor air quality? We can help with that! Just give us a call. Do you have an unusable storage area that could become a den or bonus room? With the new mini-split system air conditioners/heat pumps, these areas can become quite functional. The mini splits have the versatility of multiple indoor units (each with it's own thermostat connected to one common outdoor unit). If this sounds like something that will suit your needs call Jim at 417-581-8138.

## Preventative Maintenance

With summer around the corner, its time to start thinking about insuring your system and saving you all the money it can. Our yearly programs with a spring and fall tune-up are not only affordable; they also provide peace of mind. Call us for more information if you are not already a Comfort Club member and let us help keep your equipment running at peak efficiency.

## Goals! How are you?

Are you enjoying the Ozarks? Look at the Energy Tax Credits for the energy saving improvements in your residence. Up to 30% with no cap in federal tax credits when you install a Geo-Thermal heating and cooling system or a solar domestic water heating system in your home. Add the \$750 per ton available from your electric coop and this can make Geo-Thermal a real possibility. When you factor in the constant utility savings, comfort levels, and ease of maintenance; you can understand why it is a very affordable option. Feel free to give us a call and we will get you all the information you will need to make an educated decision.

We all know the economy is in a tragic state. With all the slowdowns in all areas, now makes a perfect time to consider a new Lennox Signature system. We offer different financing programs with approved credit and rebates are a plenty on various systems. You can definitely get more for your money. The savings in your utilities will last thru the years.

As I close this letter, I just want to take a moment out to thank all of you who have put your trust in Long Refrigeration and have made us the success we are today. We also look forward to a brighter future ahead.

Until next time;
